(C.S.)

Continuation Sheet — File No. 76 / Current No — of 1942 — Page

Belur water Supply - Construction of R C C tank

From The Dir of P H

No C 97-2 dt 26/10/42

Requests approval of Govt in the Circumstances stated to divert the provision of Rs 7000 made (in the purchase estimate for Rs 50,540 for the water supply scheme of Belur) for purchasing pressure filters as the cost of the same has gone up towards the extra Cost resulting from the change of the site for the construction of the RC C tank

1 What the extra Cost would amount to has not been mentioned and whether the pressure filters [illegible] not be required to be purchased later on is not known The Dir of P H has been requested separately to send a revised estimate incorporating all the changes, the receipt of which is awaited

2 The proposal of the Dir of P H for orders

Sd CS 11/12/42

] Two sites jointly selected for the Construction of the R C C Tank for water supply at Belur have been abandoned & a third one selected, in consultation with the President Belur Municipality & other local Gentlemen This land to be shewn in (vide C - on the plan sent up)

Approval is now sought to locate the Rice Tank on the land site and to incur the extra expenditure consequent on this arrangement & the abandoning of the site no 2 etc said that the extra expre in this behalf could be met out of the savings in accn of the non purchase of pressure filters provided for in the estimate for Rs 50,000/- for the work

4 The proposal may be sanctioned Law dept 11/12/42

5 May be sanctioned

Under 2. SG 12-12-42

6 There has been no previous delay in the matter & must be explained.

Belur Town Water Supply - R C C Tank

Sir,

I have the honour to state that the Sanitary Engineer in his letter No 488 dated 14th October 1942 intimates that the original site for the construction of the tank (marked No 1 in the enclosed plan) was changed to site No 2 and that the latter also had to be abandoned on account of unsuitability of the soil He states that site No 3 has now been selected by him after an inspection of the place on 28th September 1942 in company with the President and some members of the Municipal Council The Sanitary Engineer is of the opinion that this site being in the highest locality will advantageously serve the whole locality

There will be an excess on account of the expenditure incurred on the second abandoned site for excavation and examination of foundations and also on account of the extra length of rising main and distribution pipes now required consequent on the change of the second site to the third This extra cost can be met out of the provision of Rs 7,000/- for Pressure Filters made in the estimate sanctioned in Government Order No L 6958-61/M1 110-39-158 dated 31st March 1941 The purchase of the filters is dropped for the time being as the price of the filter which was under normal conditions only Rs 5,500/- has now shot up to above Rs 13,000/- and as the water from Yagachi river is not drawn directly into the distribution reservoir

I request you to be so good as to obtain and convey approval of Government in the matter

A copy of letter No.488 dated 14th October 1942 of the Military Engineer is enclosed for the information of Government.

I have the honour to be,

Sir,

Your most obedient servant,

Director of Public Health

Subject - Belur Town Water Supply

I have the honour to state that the revised estimate for Rs 50,540/- was sanctioned in Government Order No L 6258-61/ Md 110-39-153 dated 31st March 1941 for the above work The pumping station, the suction well, the intake arrangements, the rising main work and the distribution system have all been completed The pump erection is being taken on hand For the R C C balancing tank construction, the original site No (1) marked on the plan was ordered to be abandoned by the late Dewan Sir Mirza M Ismail and site (2) was selected instead Work on site (2) was started and on execution of the foundation it was found that the site is located on filled up soil and even pile driving was not found tobe satisfactory On account of these reasons, the site has had to be abandoned and another site has to be chosen On request from the Assistant Engineer, No (3) Sanitary Sub Division, Hassan, I inspected the town in company with the Municipal President, Belur and some Municipal Councillors on 28th September 1942 and site (3) has been selected The foundations are very good and being in the highest locality it will advantageously serve the whole locality and is in private land and I have requested the Municipal President, Belur to kindly take possession of the same and hand it over to the Assistant Engineer, No 3 Sanitary Sub Division, Hassan so that the work may be immediately taken and completed There will be an excess on account of, firstly expenditure incurred on site (2) for excavation and examination of the foundations, and secondly an extra length of rising main and distribution pipes, due to change of site (2) to the position (3) The extra cost due to this and other cause can be met from the savings due to omission of the filters which has been approved by you in your No C 57-55 dated 25th Jan 1942 The

To

The Secretary to Government,
Law Department, Bangalore

SIR,

P C C Peservoir for Belur Town Water Supply Works

Adverting to Government Order No L 6865-8/Ml 76-42-5 dated 13-1-43 conveying approval of Government to the new site for locating the reservoir, I have the honor to inform that the P C C tank construction is rapidly under progress The pump house is completed and the erection of the machinery is also well under progress, though on account of the great difficulty in procuring steel bars and required quantity of cement the work was seriously handicapped The Sanitary Engineer reports in his letter No 1003 dated 22-1-43(copy enclosed) that the Assistant Engineer in charge of the work has been instructed to complete the work expeditiously by paying his personal attention to it

I have the honour to be,
Sir,
